We have produced this calendar to explain to foreign visitors staying in our town some of the aspects related to the management of our urban environment, in particular that regarding the management of waste disposal. We believe that this is also an appropriate way of welcoming them to our town. This calendar explains how to make correct use of waste collection services. Urban waste must always be disposed of correctly and never be left in the street. Respect for these simple rules guarantees the protection of the environment and urban decorum. Those who fail to respect these rules may be prosecuted in accordance with the laws in force.
